Reduce Cost

Features

Bus Fare Prevention

People counting camera calculate the passengers getting on bus at each stop, comparing with the fare collected by driver, by this way to protect ticket fare.

Driver Behavior Monitor

Powered by DSM(driver status monitor) and BSD(Blind spot detection), the driver 's irregular behaviors (yawn, close eyes, smoke, etc) can be detected to trigger alarm, enhance to reduce accidents.

Bus Route Management

The e-fence can be used to regulate the driver to follow the designated but routes, otherwise it will trigger alarm to remind the driver in the control center.
